PAPERS AND NOTES READ BEFORE THE INSTITUTE

The flow of slurry from a breached tailings dam, by G. E. Blight, M. J. Robinson, and J. A. C. Diering 1
Tests on the cutting performance of a continuous miner, by F. F. Roxborough, P. King, and E. J. Pedroncelli 9
The non-oxidative dissolution of nickel concentrate in aqueous acidic solutions, by A. O. Filmer and P. E. L. Balestra 26
Spotlight on project management in the metallurgical industry, by J. D. Koch 33
The flotation of gold, uranium, and pyrite from Witwatersrand ores, by P. J. D. Lloyd 41
Kwaliteitsbeheer in die metallurgiese bedryf, deur W. J. Kotze 48
Discounting in the presence of inflation — the engineer giving evidence in a court of law, by O. L. Papendorf 49
Spotlight on the Council of Mining and Metallurgical Institutions and the 1982 Congress, by D. A. Viljoen 51
The 1980 Coal Processing School, by Z. Zitron 54
Automation trends in room-and-pillar continuous-mining systems in the U.S.A., by Y. P. Chugh and H. E. Parkinson .. 57
The Relix process for the resin-in-pulp recovery of uranium, by F. L. D. Cloete 66
The non-oxidative dissolution of nickel mattes in aqueous acidic solutions, by A. O. Filmer 74
Spotlight on the commissioning of metallurgical plant, by P. Lloyd and K. Levin 85
The influence of resin functional group on the ion-exchange recovery of uranium, by F. X. McGarvey and J. Ungar 93
Plant practice in the flotation of phosphate, by J. H. Fourie 101
The other side of the fence, by W. Spencer 109
A tribute to John Keith Elers Louglas 112
Spotlight on increased underground extraction of coal, by G. C. Thompson 114
Gold-mine productivity as affected by the average wet-bulb temperature of the underground working places, by D. G. Krige and C. P. S. Barnard 117
The early detection of fires and spontaneous heatings in South African collieries, by C. J. Fauconnier 122
Research into fire fighting and fire prevention in South Africa, by A. Whillier and J. D. Greig 131
Spotlight on Infacon 80, by C. W. P. Finn 136
The stability of the strata overlying the mined-out areas of the central Witwatersrand, by F. G. Hill 145
Project management in the Coal Division of Gencor, by G. C. Thompson 192
Spotlight on wear and abrasion in industry, by D. D. Howat 200
The general requirements for efficient project management, by J. D. Koch. 205
A model of capital expenditure for gold-mine planning, by J. A. L. Napier 212
Investment criteria and choice of production rate in the planning of gold-mine production, by J. A. L. Napier 221
Optimum versus maximum recovery of gold, by P.R. Jochens 229
A novel method for the underground disinfection of mine water by *in situ* chlorine generation, by D. D. Marsden and L. E. Kun 233
Heat transfer and limiting physiological criteria as a basis for the setting of heat stress limits, by J. M. Stewart 239
Project management in the metallurgical industry, by P. R. Jochens 252
The role of mining in South Africa: Presidential Address, by G. Y. Nisbet 273
The evaluation, design, and construction of the uranium plant for Chemwes Limited, by E. B. Viljoen, J. L. Taylor, J. E. Robinson, B. J. Bluhm, P. Le Grange, and W. Pilkington 280
The selection of abrasion–corrosion–resistant materials for gold-mining equipment, by C. Allen, B. E. Protheroe, and A. Ball .. 289
SX 3CR12 – a material for abrasion–corrosion control, by C. R. Thomas 298
Problems in the hydrometallurgical extraction of uranium in the U.S.A. and South Africa, by J. P. McDonald, P. L. Mattison, and J. M. W. MacKenzie 303
The reworking of old mines – a rock mechanics challenge, by R. C. More O'Ferrall 309
The reclamation of gold from worked-out mines by the Boshoff method, by G. J. Krige 315
Micro-seismic events: an aid in studies of deep-mine rock structure, by T. O. Hagan 319
Spotlight on geostatistics – Professor D. G. Krige, by A. N. Brown 321
In die kollig: hittebehandeling: teorie en praktyk, deur R. Dippenaar 323
The calculation of time required to mix liquid metal in a ladle by gas rinsing, by L. W. Helle 329
A review of the State's role in assisting gold mines in South Africa, by C. A. Border 338
A note on rapid determinations of present values in the presence of growth and inflation, by O. L. Papendorf 345
The influence of a fluctuating gold price on the potential of mining low-grade areas, by A. N. Brown 348
Spotlight on the Council for Mineral Technology (Mintek), by H. W. Glen 352
